Agile | Kanban | Microsoft Office | Adobe Creative Cloud

Employment

5/2019 – Panolam Surface Systems

4/2020 Software Engineer

- Designed large manufacturing audit database, replacing handwritten version
 - Remediated data on >2,000 products from 1 large spreadsheet
 - Created normalized database: 18 tables/countless views to house new data
 - Multi-user, self-updating, GUI released to production, with iterative improvements
- Analyzed production chain and increased efficiencies with digital tools including:
 - *Packing Slip* barcoder: customizes PDFs with information coded into header
 - *Product Guide* launcher: Crawls internal network for PDF files related to products
- Created visual guides for software and other manufacturing processes

10/2015 – Shads Advertising

10/2018 Web Store Manager

- Coordinated the web store program from inception
 - Developed 8 web stores for client employees to order branded products
 - Shopify powered with Authorize.net payments
 - HTML, CSS & JS for web design with jQuery

Assistant Production Manager

- Wrote purchase orders to vendors for custom promotional products
- Oversaw timelines, artwork and shipping estimates
- Designed proofs, mock-ups and some client materials

7/2013 – Carbonite

2/2015 Technical Support Rep

- Analyzed software issues for clients, probing for relevant information
 - Remotely connected to client computers for investigations
 - Created contact tickets and escalated appropriate situations

Education

University of Maine

Bachelor's Degree in Business Management

- Enables a business perspective on software usage; able to discuss specifics with experts in the field
